

## **HUNZIKER Stereo Pin Control Apparatus**

A necessary device for your temple maintenance.

**Purpose:** Allows an easy control to discover deformed or broken pins.

**Gain:** Avoid defects in the fabric caused by bad temple rings (which sometimes appear only after further treatment).

**Specifications:**

- magnification 20 times
- illumination light
- disc for placing temple rings with different inner diameter (please specify)
- ergonomical arrangement

**Dimensions:** length 25 cm, width 25 cm, height 40 cm – weight abt. 5 kg

For best fabric quality, make sure to use temples with rings in perfect condition only!
